

The Process

Step One

Schedule a time to talk on the phone to discuss what your organizing needs are or to discuss your need with packing or unpacking.

If it is much easier for you to text, we can do that instead. I understand how busy our days can be!

Step Two

During our conversation, we will discuss what areas of your household you are looking for help with and what you feel works and doesn't work in those areas.

I can answer any questions that you may have at that time about the process.

We will discuss your involvement as well. I can work alone or alongside you. When purging of items is needed, I recommend working alongside me so that I can help you make decisions on your possessions.

I do have a few discounts available, and we can discuss if you qualify for them.

Next, we will schedule a session! I do require a 4-hour minimum.

Step Three

Session Day!

We will get down to business and I will help you get your spaces back.

If purging is needed, this will be done first. Then, I will put your items that you are keeping back in an organized system that will work for you. Everyone is different, so what works for someone else as far as maintenance of the area, may not work for you. We will discuss what will help you keep your spaces organized.

I also do offer hauling away of any donations that you have for \$30 per car load. This way, anything that you have decided to get rid of won't be lingering at your house.

Payment will be collected at the end of the session unless other arrangements are made. I accept cash, check, Venmo and Cash App.

Step Four

If more sessions are needed for other areas, we can schedule them so that I can get you on my books.

Step Five

I will maintain follow up with you every few months to make sure your new space is working for you. I want to make sure that my clients are happy and staying organized!
